EVAPORATIVE COOLING PRODUCTS

Our **HyperKewl™** material is a unique fabric that absorbs and then slowly releases water through evaporation protecting the wearer against heat stress.

Simply soak in water for 1-2 minutes, gently squeeze out excess water and enjoy the cooling effect for 3-5 hours.*

- ✓ Low cost cooling system
- ✓ Easy to use and re-useable system
- ✓ Uniform cooling
- ✓ Lightweight, non-toxic and durable

* Requires air flow

COOLPAX

PHASE CHANGE COOLING PRODUCTS

TechKewl™ is our Phase Change Material (PCM) system. It uses a non-toxic carbon based liquid that freezes at 14°C and remains at that temperature for 2-3 hours

Simply place PCM CoolPax™ inserts in freezer or ice water for 45 minutes and insert into TechKewl™ garment pockets.

- ✓ Constant, comfortable temperature for 2-3 hours
- ✓ 30% lighter than ice vest systems
- ✓ The perfect solution for enclosed environments. e.g. Hazmat suits or heavy protective gear.
